◆ TOUCHPAD CONTROL PANEL ◆

PSB Industries (*formerly a Division of Zurn Industries*) is always striving to make our products customer friendly, dependable, and integrated with state of the art technology. This year we are proud to introduce our Heatless Dryer **TOUCHPAD CONTROL PANEL** with status display. PSB is ISO Certified assuring you that the **TOUCHPAD CONTROL PANEL** is a quality designed and meticulously engineered component.

TOUCHPAD CONTROL PANEL

- **TOWER STATUS LED's**
Drying & Regeneration
- **CYCLE MODE LED's**
Cycle Time Status
- **ADJUSTABLE CYCLE TIMES**
Save Purge/Extend Cycle Time
- **CYCLE FAILURE LED**
Pressure Switches Confirm Cycling
- **HIGH HUMIDITY LED**
Optional Moisture Alarm
- **CYCLE DEMAND**
Energy Saver Option Automatically extends drying time at low loads

◆ CONTROL PANEL RETROFIT KIT ◆

Purchase The Entire TOUCHPAD CONTROL PANEL For Existing Heatless Dryers

- > HL Dryers (*all Zurn & PSB Models*)
- > PSM Dryers (*all Zurn & PSB Models*)
- > PSL Dryers (*all Zurn & PSB Models*)
- > Replaces Cam Timers, Models 45 & 50 Solid State Boards (*all Zurn & PSB Models*)
- > Cycle Demand Option replaces Accu-Purge

RETURN ON INVESTMENT

Clean, dry compressed air is essential in any application to maintain maximum efficiency in the use of pneumatic equipment. The benefits of retrofitting a **TOUCHPAD CONTROL PANEL** compared to the cost should not be a factor.

The **TOUCHPAD CONTROL PANEL's** built in DIP switch with selectable times of 4, 10, 15, and 20 minutes, will maintain your facilities expensive equipment and tools. This is a moderate investment for the clear-cut advantages that you will receive from the **TOUCHPAD CONTROL PANEL RETROFIT KIT**.

Driving Force

Sequential pressure cycling between towers is the *driving force* for all Heatless Dryers, that's why the TouchPad Control Panel includes pressure switches monitoring the pressure swing.

If a pressure fault is detected the Cycle Fail LED and Remote Contact are initiated.

STANDARD FEATURES:

- ◆ NEMA 4X Fiberglass Control Box
- ◆ Cycle Failure LED
- ◆ Tower Status LED's
- ◆ Cycle Mode LED's
- ◆ Adjustable Cycle Times

Control Panel Options	PSB p/n	Price
With Standard Features	70305-506	\$735.00
With Std. Features & High Humidity	70305-507	\$1,224.00
With Std. Features & Cycle Demand	70305-508	\$1,224.00
With Std. Features & High Humidity & Cycle Demand	70305-509	\$1,713.00

NOTES:

1. Price is for Control Panel Assembly and electrical schematic.
2. Retrofit to existing Dryers *must* be reviewed prior to sale, model & serial number required when quoting / inquiring.
3. Kit for Cycle Failure, High Humidity, Cycle Demand is not included in price.
